Mutual funds and exchange-traded fund investments may lose value, and are not FDIC insured or government guaranteed.

FUNDGRADES® uses a five-factor statistical evaluation methodology for analyzing mutual and exchange-traded funds. A description of the five factors can be found on the **FUNDGRADES®** website under the "Grading Methodology" tab. Data obtained for the five-factor evaluation for any mutual or exchange-traded funds is believed to be from reliable sources but has not been independently verified by Wealthcare Capital Management® (hereafter in these disclosures as "Wealthcare").

Wealthcare, its employees, principals, and Affiliated Persons, as that term is defined by the Securities Exchange Commission, are not obligated to buy, sell, or recommend for any other client or their own accounts any security based on that security's **FUNDGRADES®** overall or component factors' grades.
